SUMMARY

Artificial Intelligence graduate passionate about Data Science, Data Analysis, and Machine Learning. Proficient in Python for data analysis and machine learning, with hands-on experience through practical projects. Eager to apply analytical thinking and technical skills to solve real-world challenges while continuously expanding knowledge in AI and data-driven technologies.

TECHNICAL SKILLS

Programming Languages: Python, SQL, Java, C++

Data Science & Machine Learning: Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch

Data Analysis & Visualization: Power BI, Microsoft Excel, Matplotlib, Seaborn

Tools & Development: Jupyter Notebook, Git, GitHub

Core Competencies: Data Analysis, Data Cleaning & Preprocessing, Machine Learning, Exploratory Data Analysis (EDA), Data Visualization, Problem Solving, Analytical Thinking

Soft Skills: Teamwork, Communication, Public Speaking, Conflict Resolution, Continuous Learning

EDUCATION

Bachelor of Computer Science and Artificial Intelligence

Oct 2022 – Jun 2026

Fayoum University – Fayoum, Egypt

Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Artificial Intelligence, Machine Learning, Data Science

PROJECTS

AI Medical Lab Analyzer

Python · Streamlit · Random Forest · Matplotlib · ReportLab · scikit-learn

- Built an interactive app for analyzing blood tests (CBC & BMP) with manual input, dashboard, and graphs.
- Integrated PDF report generation with medical explanations; predicts risk of Anemia and Diabetes using Random Forest.
- Fully functional dashboard with a chatbot feature currently in progress.

GitHub: github.com/ABDELRHMAN4004/medical-lab

Face Mask Detection Using CNN

Graduation Project — Array Academy, 2025

Python · OpenCV · TensorFlow/Keras · Tkinter · Haar Cascade

- Built a real-time face mask detection system with automatic screenshots for non-compliance events.
- CNN binary classifier on 100x100 grayscale images (With/Without Mask) with a live-camera GUI.
- Packaged as a standalone desktop application using PyInstaller.

Link: [Google Drive — Face Mask Detection](#)

Olist Delivery SLA Analysis

Instant Academy 2026

Python · Pandas · SQL · Power BI · Matplotlib · Seaborn

- Evaluated delivery SLA performance by analyzing on-time rates, delivery delays, and estimated vs. actual delivery times across thousands of e-commerce orders.
- Explored the impact of seller performance, geographic location, shipping costs, and delivery delays on customer review scores, providing actionable business insights and recommendations.

GitHub: <https://github.com/ABDELRHMAN4004/olist-sla-analysis>

Global Cybersecurity Threats Analysis (2015-2024)

Python · pandas · Matplotlib · Seaborn · scikit-learn

- Analyzed global cyberattacks across countries, attack types, industries, and financial losses.
- Applied EDA, heatmaps, correlation analysis, and predictive modeling on decade-spanning data.

GitHub: github.com/ABDELRHMAN4004/DataAnalysis — Global Cybersecurity Threats

Sales Analysis Dashboard

Power BI · Data Visualization · Business Intelligence

- Built an interactive Power BI dashboard to analyze sales, profit, customers, and product performance.
- Created KPIs and visual reports with dynamic filters for category, state, and year.
- Analyzed sales trends by region, sub-category, and time to generate actionable business insights.

TRAINING & CERTIFICATIONS

Artificial Intelligence & Applications Training

Aug 2023 | 50 Hours

Zewail City of Science and Technology

Studied fundamentals of AI and intelligent systems with practical applications.

Artificial Intelligence Diploma

Jul 2024 – Jul 2025 | 150 Hours

ARRAY Training & Courses Center

Comprehensive AI and Machine Learning curriculum with practical training exercises.

Artificial Intelligence Training Program

Jul 2025 – Aug 2025 | 90 Hours

Information Technology Institute

Studied machine learning fundamentals and applied AI applications.

Data Analytics Summer Training

Aug 2025 | 120 Hours

National Telecommunication Institute & Information Technology Industry Development Agency

Covered data analysis, visualization techniques, and freelancing fundamentals.

Generative AI Training

Jan 2026 – Feb 2026 | 35 Hours

Information Technology Institute in collaboration with NVIDIA Deep Learning Institute

Introduction to Generative AI and modern AI models.

Certifications & Online Learning

- Completed multiple online courses and trainings in Artificial Intelligence, Machine Learning, Data Science, and related fields.
- All certifications, diplomas, and progress documented on my LinkedIn profile for verification and details.
